EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony M. Palagonia on 3/3/06.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 20-43.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claims 2-18 are allowed over the references of record because none of these references disclosed or can be combined to yield the claimed invention such as a field effect transistor (FET) having all the limitations of original claim 1 (rejected over ODA et al. 2001/00544604 and now cancelled), and additionally the limitation of first and second dielectric layers (between which the Ge comprising layer is formed) extending

under first and second opposite sides of the single crystal silicon channel region of said FET, as recited in claim 3.

ODA et al. 2001/005⁴⁵44604's first and second dielectric 23/24 (between which Ge comprising layer 43 is formed) extend under single crystal Si source/drain regions 45 but not under the sides of ODA et al.'s single crystal silicon channel region 44.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
